

PositionFactory::AddPosition

```
graph LR; A[PositionFactory::AddPosition] --> B[PositionFactory::Update]; B --> C[PositionFactory::DecodePosture];
```

The diagram illustrates a three-step process flow for the PositionFactory class. It consists of three rectangular boxes arranged horizontally. The first box, labeled 'PositionFactory::AddPosition', is white with a black border. A blue arrow points from its right side to the second box, labeled 'PositionFactory::Update', which is also white with a black border. Another blue arrow points from the right side of the second box to the third box, labeled 'PositionFactory::DecodePosture'. This third box is shaded gray with a black border, indicating it is the final step in the sequence.

PositionFactory::Update

PositionFactory::DecodePosture
