

Logger::logToSerial

```
graph LR; A[Logger::logToSerial] --> B[Logger::encode]
```

A diagram illustrating a function call. On the left, a gray rectangular box contains the text "Logger::logToSerial". A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text "Logger::encode". Both boxes have a thin black border.

Logger::encode
